ADMINISTRATION

Medical Education

Associate Professor/Assistant Professor The Department of Medical Education is seeking a faculty member to provide research and development in graduate medical education. Specific responsibilities include: monitoring programmatic curriculum issues across all residency programs and reporting to the Graduate Medical Education Review Board quarterly, coordinating curriculum initiatives for all residency programs, assisting residency programs in the development of assessment tools for the Accreditation Council for Graduate Medical Education (ACGME) core competencies as well as program-specific competencies, assessing the implementation of the ACGME core curriculum across the institution, developing and conducting a fundable research program in graduate medical education, behavioral science, and/or health care, serving on the Internal Review Committee and contributing to the Internal Review report, and, providing leadership in the development of programs and educational initiatives aimed at enhancing the quality of the residency programs at the University of Michigan. This is a tenure-track position and is posted as Assistant Professor/Associate Professor/Professor. Rank of selected candidate is dependent upon qualifications. Applicants must have a terminal degree (e.g., Ph.D., Ed.D.) in a relevant discipline (e.g., education, psychology, public health) with experience in education (ideally medical education). The successful candidate will demonstrate strong oral and written communication skills; a team-building and collaborative work approach; excellent interpersonal, organizational, and administrative skills; documented experience in research methodology and data analysis; a proven publication record in

peer-reviewed scholarly journals; and, previous experience in curriculum development, implementation, and evaluation. Ongoing, independent funding is desirable. Please submit a letter of application, curriculum vitae, and the names and addresses of three professional references to: Tricia S. Tang, Ph.D., Department of Medical Education, G1109 Towsley Center SPC 5201, 1500 E., Medical Center Drive, Ann Arbor, MI 48109-5201. Women and minority candidates are strongly encouraged to apply. The University of Michigan is a non-discriminatory/affirmative action employer. (23699)

Associate Professor/Assistant Professor The Department of Medical Education is seeking a faculty member to join us in developing a broad range of programs and research in medical student, resident, and physician education. This faculty member will be expected to provide leadership in curriculum development, instructional methods, and assessment approaches for the Medical School's undergraduate, graduate, and continuing medical education programs. Specific responsibilities will include, but are not limited to: developing and implementing learner-centered curriculum activities in the Medical School evaluating various educational programs of the Medical School providing leadership in curriculum evaluation conducting scholarly research in medical education maintaining active membership on assessment committees collaborating with students, residents, and faculty members in educational scholarship and research working with faculty members to develop their skills as teachers and clinical educators developing an independent program of research securing external funding for medical education or behavioral research This is a tenure-track position and is posted as Assistant Professor/Associate Professor/Professor. Rank of selected candidate is dependent upon qualifications. Applicants must have a terminal degree (e.g., Ph.D., Ed.D.) in a relevant

social or behavioral science discipline (e.g., education, psychology, public health) with experience in education (ideally medical education). The successful candidate will demonstrate expertise in educational theory and principles, curriculum assessment, program evaluation, survey design, quantitative and qualitative analysis, and a proven publication record in peer-reviewed scholarly journals. Ongoing, independent funding is desirable. Please submit a letter of application, curriculum vitae, and the names and addresses of three professional references to: Tricia S. Tang, Ph.D., Department of Medical Education, G1109 Towsley Center, SPC 5201, 1500 E. Medical Center Drive, Ann Arbor, MI 48109-5201. Women and minority candidates are strongly encouraged to apply. The University of Michigan is a non-discriminatory/affirmative action employer. (23700)

CLINICAL SCIENCE

Anesthesiology

Open Rank Open Rank Positions. The Department of Anesthesia at Cincinnati Children's Hospital Medical Center/University of Cincinnati College of Medicine is seeking board eligible or board certified anesthesiologists for faculty positions. Faculty positions require completion of a one-year pediatric anesthesia fellowship or a pain management fellowship. Responsibilities will focus on clinical care and teaching of medical students, residents, fellows and nurse anesthetist students. Clinical and basic science research opportunities are available. Academic rank will be determined by candidate's credentials and experience. Send CV and the names and addresses of three references to: C. Dean Kurth, M.D., Professor and Anesthesiologist-in-Chief, Cincinnati Children's Hospital Medical Center, 3333 Burnet Avenue, MLC 2001, Cincinnati, Ohio 45229-3039. Cincinnati Children's Hospital Medical Center is an Affirmative Action/Equal Opportunity Institution. Women and minorities are encouraged to apply. (23480)

Medical Pathology

Chairperson Department of Medical Pathology and Laboratory Medicine. The University of California, Davis, School of Medicine seeks a dynamic physician-leader as Chair for the Department of Medical Pathology and Laboratory Medicine. The successful candidate must have the ability to anticipate change and implement initiatives to meet the challenges of academic medicine and managed care, to work cooperatively and collegially within a diverse environment and should exhibit excellent interpersonal skills to build and maintain relationships with administration, trainees, and medical, nursing, and technical staff. Candidates must be board-certified in Anatomic Pathology and/or Clinical Pathology, have a distinguished record in teaching, clinical care, administration and/or research, and must meet requirements for appointment as Full Professor in one of the University of California's academic series. Eligibility for licensure in the state of California is also required. The responsibilities of this position include the administrative oversight of the department's clinical services, training programs, research initiatives, budget and resource allocations. Vice-Chairs are available in research, education, and AP & CP for operational support. It is anticipated that the chair will devote the majority of his/her effort to administrative duties and university service. Clinical service and or research may also be expected based on the candidate's academic series. Teaching contributions are required. The Department of Pathology and Laboratory Medicine has over 30 faculty members, provides service in all major subspecialties of anatomic and clinical pathology, and is active in basic science, translational, and clinical research. Educational programs include a 14-person

TEXAS TECH UNIVERSITY
Health Sciences Center
Paul L. Foster School of Medicine

Assistant Dean for Faculty Development, Open Rank Faculty Position

Assistant Dean for Faculty Development, Open Rank Faculty Position. The Paul L. Foster School of Medicine at El Paso is seeking a highly qualified applicant to serve as the full time Assistant Dean for Faculty Development.

The Assistant Dean for Faculty Development will report to the Associate Dean of Faculty Affairs and Development and will have a faculty appointment at the Paul L. Foster School of Medicine. The position will assist the Associate Dean for Faculty Affairs and Development in the development and implementation of the departmental faculty development program - a continuing phase of the institutional faculty development program for junior and mid level faculty. The position serves as liaison between institutional and departmental faculty development programs and coordinates with the Office of Continuing Medical Education and Faculty Affairs in the development and implementation of a development program for community-based physicians. The Assistant Dean will monitor and report the measurable outcomes and progress of participants in the faculty development program to ensure accountability. The Assistant Dean will participate in the development of the Clinical Skills curriculum for training residents, fellows, faculty, and allied healthcare providers. The Assistant Dean will initiate and/or participate in educational research projects and publish scientific articles in peer-review journals.

Minimum Qualifications: M.D., D.O. from an accredited medical school, or Ph.D./Ed.D. Board certified in a primary care area, Licensed in Texas, or eligible for licensure in the State of Texas, if applicable. Must possess excellent communications skills and three years or more of experience in Faculty Development, or Clinical Simulation.

Preferred Qualifications: Established track record in curriculum and course design and evaluation. Experience in computer-based medical simulation, high fidelity human patient simulator, and/or virtual reality. Experience in directing residency or fellowship training. Experience in teaching Evidence-Based Medicine, and/or biomedical statistics.

Salary, academic rank and tenure option are commensurate with qualifications and experience. A comprehensive benefits package is included. Interested candidates must apply online at <http://jobs.texastech.edu>, requisition 78607. For further information, potential applicants may inquire confidentially to:

Hoi Ho, M.D., Search Committee Chair
Associate Dean for Faculty Affairs and Development and Director,
Clinical Skills and Clinical Simulation Center hoi.ho@ttuhsc.edu

The positions are open until filled. Application review will begin immediately.

The clinical positions available are in Spine, Foot & Ankle, Sports, & Total Joint. Please forward a recent curriculum vitae and personal statement to: Randall E. Marcus, MD, Chairman, Department of Orthopaedic Surgery, 11100 Euclid Avenue, Cleveland, OH 44106. The University is an EO/AA Employer. (23559)

Pathology

Full Professor/Associate Professor/Assistant Professor Position in Liver and Transplantation Pathology.

CLINICAL SCIENCE: Pediatrics

The Division of Liver and Transplantation Pathology of the University of Pittsburgh Medical Center is offering a position at the Assistant, Associate or Full Professor level (tenure or non-tenure depending on qualifications). The applicant must be Board Certified in Anatomic Pathology, preferably with fellowship training in surgical pathology or a subspecialty discipline with strong diagnostic skills. Candidates with an academic focus are highly desirable. We are aiming toward an individual with interest to develop or having already developed an independently funded research program that will blend with their clinical responsibilities. Please send (1) curriculum vitae; (2) a letter of interest describing research and academic interests, as well as a brief statement of personal goals; and (3) three references (including name, address and phone number) to: A. Jake Demetris, MD, Director, Division of Transplantation Pathology, UPMC Montefiore, Room E741, 3459 Fifth Avenue, Pittsburgh, PA 15213; or Email letter and CV to askrenl@upmc.edu. The University of Pittsburgh is an Affirmative Action/Equal Opportunity Employer. (23716)

Pediatrics

Director/Full Professor/Associate Professor Saint Louis University is seeking candidates for Director of the Division of Critical Care Medicine in the Department of Pediatrics at Cardinal Glennon Children's Medical Center. The candidate should have a record of research and scholarly accomplishments as well as a commitment to excellence in patient care and medical education. The position is at the Associate Professor/Professor rank. The candidate must be BC/BE in Pediatric Critical Care Medicine and be eligible for licensure in Missouri. The Critical Care Medicine Division has a tradition of providing outstanding medical education and patient care to the St. Louis community and surrounding region. Clinical services include a 19 bed

pediatric intensive care unit that admits approximately 1000 medical/surgical patients per year, and which supports cardiothoracic surgery, liver and kidney transplants and ECMO. The PICU admits its patients through the Emergency Department (a level I Pediatric Trauma Center) with over 40,000 visits per year and a dedicated pediatric transport team. Numerous research opportunities exist within the Pediatric Research Institute of Cardinal Glennon Children's Hospital and the Saint Louis University Health Sciences Center and Medical School. Cardinal Glennon Children's Medical Center is a 190 bed, free-standing tertiary care children's hospital with a complete range of surgical and medical pediatric subspecialties. The Department of Pediatrics at Saint Louis University, which staffs Cardinal Glennon Children's Medical Center, is comprised of 96 full-time and part-time faculty members. Interested candidates must submit an application, cover letter and current curriculum vitae to <http://jobs.slu.edu>. A specific statement of interests and goals should be e-mailed to: Joyce M. Koenig, M.D., Professor and Associate Chair for Research, Department of Pediatrics, at koenijm@slu.edu. Telephone inquiries may be directed to Ms. Barbara Bequette, (314) 577-5606. Saint Louis University is a Catholic, Jesuit Institution dedicated to student learning, research, health care, and service. Saint Louis University is an Affirmative Action, Equal Opportunity Employer, and encourages nominations of and applications from women and minorities. (23641)

Chief/Open Rank The Department of Pediatrics at Louisiana State University Health Sciences Center in Shreveport is seeking BC/BE candidates for the positions of Chief of Gastroenterology, Chief of Neonatology, Chief of Nephrology. Additional faculty are also being sought in Critical Care, Endocrinology, Gastroenterology, Neonatology, and Nephrology to expand existing programs at the Children's

Hospital. LSUHSC-S serves as a tertiary care referral center for a population of 1.25 million within a 100-mile radius. Responsibilities include patient care, and resident and student education. Protected time is available to support clinical and/or basic research interests. Academic rank and salary are dependant on experience. Please send CV and three letters of recommendation to: Joseph A. Bocchini, Jr., M.D., Chairman, Department of Pediatrics, LSUHSC-S, 1501 Kings Highway, Shreveport, LA 71103. Telephone: (318) 675-6073. Fax: (318) 675-6059. E-mail: jbocch@lsuhsc.edu. LSUHSC-S is an affirmative action/equal opportunity employer. Women and minority applicants are encouraged to apply. (23647)

Full Professor/Associate Professor Director, Division of General Academic Pediatrics. Saint Louis University School of Medicine. Cardinal Glennon Children's Medical Center. Saint Louis University, a Catholic, Jesuit institution dedicated to student learning, research, health care, and service is seeking candidates for a faculty position in the Department of Pediatrics at the Associate Professor/Professor rank as the Director of the Division of General Academic Pediatrics at Cardinal Glennon Children's Medical Center. The Division Director will have opportunities to recruit both clinical and research faculty, to plan significant programmatic and facilities enhancements, and to develop a program of clinical and translational research. The candidate should be BC/BE in Pediatrics and have a proven record of academic excellence as well as a commitment to excellence in patient care and medical education. Division members provide a wide variety of medical services to patients at SSM-Cardinal Glennon Children's Medical Center. University Pediatrics is the primary care practice of the Department of Pediatrics, serving as the medical home for approximately 9,000 patients with 15,000 visits per year. The patients cared for at University Pediatrics have more serious acute and chronic medical problems and more social/economic problems than patients in a typical community practice. The Medical Diagnostic Clinic, a consultation service offered to referring physicians, is operated by the General Academic Pediatrics Faculty. Division members have broad expertise, with special interest in failure to thrive; adoption medicine; community pediatrics; advocacy; urinary tract infections; voiding dysfunction; adolescent health care; sports medicine; the effect of media on children; health care needs of gay and lesbian youth; international child health; endocrinology; developmental delay; attention deficit hyperactivity disorder; and care of the child with special health care needs. The Division is also responsible for the care of patients in the well newborn nursery at SSM-St. Mary's Medical Center in Richmond Heights. Cardinal Glennon Children's Hospital is a 160-bed free standing hospital located in midtown Saint Louis, adjacent to Saint Louis University. The Hospital serves a diverse population from the inner city, the metropolitan area, and a 200-mile referral radius. The medical staff includes over 90 full-time Saint Louis University School of Medicine faculty. A new 10-story tower serves as the Health Sciences Center Research Building was completed in 2007. Interested candidates must submit a cover letter, application and current curriculum vitae to <http://jobs.slu.edu>. All other correspondence regarding this position can be sent to Jay Noffsinger, M.D., Chair, General Academic Pediatrics Committee, Professor, Department of Pediatrics, Saint Louis University School of Medicine, 1465 South Grand Blvd, St. Louis, MO 63104. Telephone: (314)268-4101; Fax: (314)577-5379; email: noffsije@slu.edu. Saint Louis University is an Affirmative Action, Equal Opportunity Employer, and encourages nominations of and applications from women and minorities. (23685)

Associate Professor/Assistant Professor Saint Louis University, a Catholic, Jesuit institution dedicated

FACULTY POSITION CENTER FOR BIOBEHAVIORAL HEALTH

The CENTER FOR BIOBEHAVIORAL HEALTH in the Research Institute at Nationwide Children's Hospital and The Ohio State University Department of Pediatrics is seeking PhD, MD, or MD/PhD candidates for a tenure-track position to develop and conduct independent research within the broad domain of biobehavioral health. Candidates with a record of funded research regarding the developmental, behavioral, and neuropsychological outcomes of infants and young children with diseases that affect the central nervous system (e.g., congenital heart disease, prematurity/low birthweight, traumatic brain injury, epilepsy) are especially encouraged to apply. Existing lines of research with the Center include neurobehavioral outcomes of childhood brain disorders, child and family adjustment to chronic illness, and risk factors for adolescent conduct problems and addiction. The recruitment is part of the research institute's strategic plan to develop clinical research in cardiovascular and perinatal medicine. The institution is especially committed to building its clinical research program, and has attractive startup packages available for qualified applicants. Joint appointments within graduate departments of The Ohio State University are available. The positions are most likely to be filled at the Assistant or Associate Professor level, although outstanding candidates at the Professor level will also be considered. For more information, please visit our website at www.ccrr.net.

The Ohio State University is an Equal Opportunity, Affirmative Action Employer. Women, minorities, veterans, and individuals with disabilities are encouraged to apply.

University of Pittsburgh

Professor of Surgery (Tenure). Division of Transplant Surgery. The University of Pittsburgh and the Thomas E. Starzl Transplantation Institute are seeking well-qualified, senior investigators to fill the position of Professor of Surgery with tenure. The successful candidate will be responsible for liver transplantation in adult patients and for clinical and/or basic research. Qualifications: The successful candidate will need documented expertise in the biology of T cell activation and regulation as well as in experimental T cell-targeted therapies in transplantation. The candidate should demonstrate a high degree of research productivity as measured by publications, continuous record of NIH funding, a minimum of 80% effort in research activity and participation in clinical activities related to transplant nephrology. National and international recognition as documented by society membership and invitations to speak in these areas is a prerequisite for tenured appointment. A commitment to teaching, institutional leadership and advocacy are necessary. Candidates should reply with a current CV and three letters of support to: Tracey Vogel, Administrative Coordinator, Department of Surgery, University of Pittsburgh, P.O. Box 7533, Pittsburgh, PA 15213.

Postdoctoral Research Training in Biotherapy of Cancer. We are seeking a qualified applicant for a Postdoctoral Basic Research Training Program in the Division of Surgical Oncology at the University of Pittsburgh. The position will be supported by a NIH T32 Training Grant. Salary is commensurate with the level of postgraduate training. Qualifications: Candidates must have an MD or MD/PhD and be a surgical resident. Candidates must be citizens or permanent residents of the US. Preference is given to individuals finishing his/her surgical residency with academic interest in Surgical Oncology. However, we strongly encourage all surgical residents to apply. No prior basic research experience is necessary. Interested individuals should forward a letter of interest and current CV to Ms. Eve Blasko, Research Administrator, Blasko@upmc.edu.

Professor with Tenure. Department of Surgery. The Department of Surgery at the University of Pittsburgh's School of Medicine in joint collaboration with the

University of Pittsburgh's Cancer Institute (UPCI) seeks well-qualified individuals for the position of Professor with tenure. Outstanding individuals are encouraged to apply. Candidates must have demonstrated expertise in the development and implementation of antibody-based immunotherapy for the treatment of solid tumors, in the molecular characterization of escape mechanisms utilized by tumor cells, and in the development of strategies to counteract escape mechanisms. This is an excellent opportunity for an experienced investigator to direct the research program at one of the world's leading research institutes. The incumbent must be an established investigator with successful publication record in the field of tumor immunology. An externally-funded research program is required and an interest in combining basic science with clinical and translational research is preferred. Candidates for this position will also serve as Associate Director for Faculty Career Development and Advancement at UPCI and must be committed to teaching, institutional leadership and advocacy. Considerable resources are available for program development and expansion. Interested candidates should send their CV's and names of three references to: Tracey Vogel, Administrative Coordinator, Department of Surgery, P.O. Box 7533, Pittsburgh, PA 15213; Email: vogelt@upmc.edu.

Director of the Center for Innovative Regenerative Therapies. Children's Hospital of Pittsburgh, The McGowan Institute for Regenerative Medicine, and the Department of Surgery, University of Pittsburgh School of Medicine. Children's Hospital of Pittsburgh, the McGowan Institute for Regenerative Medicine, and the Department of Surgery, University of Pittsburgh School of Medicine seeks to hire a Director for the Center for Innovative Regenerative Therapies at the rank of Professor with tenure. Applicants will be expected to have a MD with advanced clinical and research training, and fifteen or more years of research experience. The successful candidate will have a clear and demonstrable record of scholarly accomplishment and excellence, exemplary commitment to the maintenance of a vigorous research enterprise and able to provide the leadership to develop and promote the shared vision of the Center that is focused on the establishment of nontraditional therapies for the treatment of organ failure, cancer, and metabolic diseases. Interested candidates should reply with a current CV to: Alan J. Russell, McGowan Institute for Regenerative Medicine, 100 Technology Drive, Suite 200, Pittsburgh, PA 15219.

The University of Pittsburgh is an Affirmative Action, Equal Opportunity Employer.
